HIGH FARES.

The completion of the railroad from Carson to Hawthorne has given many an impression that the inauguration of business over that road will divert the entire Bodie travel and freight to that road. We do not think so. The railroad management must exhibit a more liberal spirit than they are doing just now. Instead of there being a reduction in passenger rates between Bodie and Carson, as our people had been led to believe would be the result of the building of a railroad, the fare is to be increased \$3-\$18 against \$15, the present stage fare, and \$8 by the fast freight. An \$18-fare over the new road is extortion, and we doubt if the traveling public will submit to it any longer than compelled to. If there is an increase in passenger rates, can the people of Bodie hope for any reduction in freight rates? We think not. Freight will be handled three times by the management of the new road—at Reno, at the Mount House, and at Hawthorne—each handling insuring more or less damage to merchandise. If passengers were whirled into Bodie in palace cars in daylight, there might not be quite so much objection to the fares, but to be compelled to ride forty miles in a stage between sundown and midnight, will not make the route any too popular. The extra \$3 charged for a fare is a man's wages for a good day's work, and very few men feel inclined to work hard all day for a railroad corporation's benefit if they can help it, and we shall not be surprised to hear of a joint stock company being formed among our farmers to put on a line of stages between Bodie and Carson over the Antelope road by way of Bridgeport and Colville. We believe that such an enterprise would pay with a \$12 fare, as our farmers have plenty of stock, and such an enterprise would give them a market for their hay and grain. There is no better road in this State for staging or freighting over, than the Antelope road. It has an uncommonly easy grade; has fine stations, and is probably better watered than any other road of its length in the country. A stage line over this route can put passengers into Bodie two hours ahead of the railroad; and passengers for the Homer District can be put down in Lundy, if a connection is made, as quickly as they could be landed in Bodie. There will be a great travel to Homer District this Summer, and those bound to that point will be likely to patronize the cheapest route. If a company should be formed to run stages over this road it is more than probable that a contract could be obtained to carry the mail between Carson and Bridgeport, which would materially assist in keeping the line running.

In the matter of freights, we are told that teamsters will deliver freight into Bodie or Lundy after the first of June for 1 1/2 cents per pound to the first of November, and for 2 cents after that date. These rates are lower than freight will be delivered by the railroad—there being 40 miles of teaming from the terminus of the railroad. The competition in Bodie is so great, the merchants of that live camp will have their goods delivered by the cheapest route—be it by railroad or by team. The Carson and Bodie Railroad promises to be short-lived, so far as its Mono county business is concerned, for the California Narrow-Gauge is a fixed fact, and its locomotives will in due time be whistling over the mountains of Mono, and will do all the business of this section. The road is already reaching out from Oakland and will reach Modesto in time to move the grain crop of this season, and next Fall it will be crawling over the foothills of Old Tolueme, and another year will see it at or near Bridgeport.

The Legislature of Tennessee has passed a bill for the office of any Sheriff who shall permit a convict to be taken from his custody and lynched.

The man in California who would vote for such a bill, or a Governor who would sign it, would politically die.

Theodore Coleman, publisher of the Santa Clara Journal, and a good paper it is, has been elected Town Clerk and Assessor without opposition. This is complimentary. As a general thing, newspaper men are elected to stay at home.

On Tuesday and Wednesday last there arrived at New York, from Europe, gold to the amount of \$1,300,000, and on Wednesday \$1,000,000 were withdrawn from the Bank of England for shipment to the United States.

DYING FRUIT.—An enormous increase in the evaporated fruit business is taking place in Western New York, the recent legal decision that there is no monopoly of the sulphur process of bleaching having had a stimulating effect on the industry. The opinion of experts is that fruit can be dried by the evaporator cheaper than by sunlight, and the produce is immeasurably better. A New York firm last evaporated 20,000 bushels, and bought of other evaporators 300,000. Of this a London house took 160 tons, and has doubled the order. The growers throughout the State of New York are preparing to develop the foreign market for this product. Each evaporator will dry 100 bushels of apples a day. Girls are employed at the work, and earn from sixty cents to a dollar a day. After the apples are pared and sliced, which is performed by one operation, they are bleached by exposure to sulphur fumes for about an hour, and then evaporated, the double process keeping them edible for an almost indefinite period. —Farmers' Union.
